

TM

# Optimum One

## PRODUCT SPECIFICATIONS

### DESCRIBE

## ADVANCED TERPOLYMER CONTROL Cooling Water Treatment Technology

### FEATURES

- Contains the most advanced Terpolymer for maximum scale protection
- maintains condenser/tower scale and corrosion free for maximum energy efficiency
- easy to feed solid that is effective over wide operating characteristics

### USAGE

-Optimum One is an advanced formulation containing a patented Terpolymer. Optimum One will maintain all system metals scale and essentially corrosion free ,saving energy. Optimum One contains an anti-foulant for breaking up biological matter and debris which can contribute to scale .

### DOSAGE

-Maintain 2-6 Polymer as PTU units in system water. Actual dosage depends on individual operating conditions.
